Bean's Goose Decoy

This extra large Cork Decoy will make a very attractive addition to any stool of Black Duck or Mallard decoys. One or two Goose Decoys set out along with the regular decoys tend to make the birds less wary.

The fact that it was judged the winner in the Goose Decoy class at the National Decoy Contest attests to its close reproduction to the natural bird.

Body size, 22" x 9 $\frac{3}{4}$ ". Weight approximately 4 lbs. Has full length wooden keel. Made with removable head that can be locked in place.

Price, \$11.25 each postpaid. Set of six (three feeders and three upright head positions) \$66.00 postpaid.

Bean's Decoy Bag

Anyone who has taken in wet decoys in cold weather will appreciate our decoy bag. Makes a convenient way of carrying decoys with lines and anchors attached — decoys can be quickly set out or taken in.

Made of heavy Brown duck with partitions to hold decoys in place. Will carry six Coastal Decoys.

Size 9" x 29" x 17" high.

Price, \$6.80 postpaid.

Extra Large Decoy Bag for Deluxe Oversize or Goose Decoys.

Size 11" x 30" x 18" high.

Price, \$8.15 postpaid.

Bean's Brant Decoy

Good Brant decoys are hard to find. Our decoys are made with non-glare cork bodies and wooden keels to prevent drifting.

Heads are white pine and removable. Can be attached permanently with screws and washers provided.

Body size, 19 $\frac{1}{2}$ " x 8 $\frac{1}{2}$ ".

Price, \$7.15 each. Six for \$42.00 postpaid.

Bean's Leather Game Carrier

Our own design and manufacture. Will hold twelve ducks from the six slipnoose straps.

Price, \$1.25 postpaid.

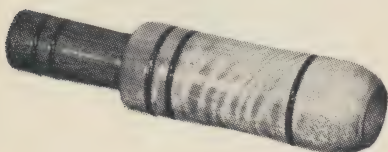

Game Bird and Predator Calls

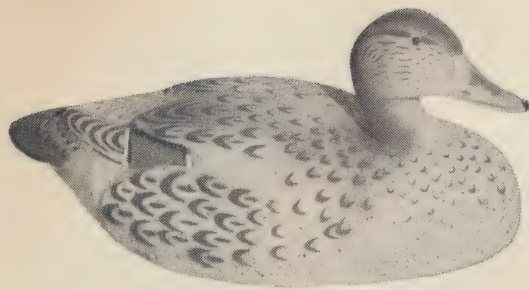

Our wood barrel calls are hand tuned and proven effective when properly used.

Duck Call \$3.55
Goose Call 4.45

Crow Call \$1.95
Predator Call 2.70

All prices postpaid.

Deluxe Oversize Decoys

Our large oversize decoys have been thoroughly tested in the Merrymeeting Bay area of Maine and have proved much more effective than regular size, often bringing ducks in over nearby sets of smaller decoys.

One customer from Dallas, Texas, writes: "I am firmly convinced that there isn't another decoy anywhere that can compete with them."

Made of cork, which has less glare than other materials, with white pine heads and full length wooden keels. Particular care

is taken during construction to give accurate detail in shaping and painting. The fine appearance of these decoys must be seen to be appreciated.

Body size 20" x 9". Two patterns: **Black Duck. Mallard.**
Price, \$11.65 each postpaid. Six for \$67.85 postpaid.

See page 99 for Coastal Decoys.

Lightweight Cork Decoys

Are excellent imitations of the natural bird. Light enough for easy carrying yet larger than the average decoy.

Non-glare cork body has wooden keel to prevent drifting. Extra body weights are not required. Heads are made of white pine.

Two patterns: **Black Duck. Mallard.** Body size 14½" x 6½".

Price, \$4.25 each postpaid. Set of six, \$24.50 postpaid.

Bean's Decoy Anchor and Anchor Cord

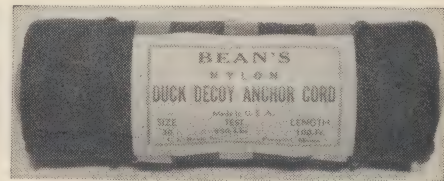

The Anchors are made from lead alloy. Will hold in any current where it is practical to use decoys. Weight 8½ oz.

Price, 65c postpaid. Two pair, \$1.20 postpaid.

Bean's Insulated Sporting Boot

Constructed in the same manner as our Lightweight Insulated Boot, shown on page 49. Made of durable drill fabric with several coatings of strong rubber. The built-in insulating material creates a sealed air barrier. Inside leg harness allows it to be worn as knee boot without adjustment. Has chain tread sole.

Perfectly adapted for stream fishing, duck hunting, washing car and swamp hunting.

Color, Olive Drab.

Men's sizes 6 to 13. Whole sizes only. Medium width.

Price, \$15.85 postpaid. West of Mississippi add 25c.

Sporting Boot Harness

This harness will hold up hip boots just as easily and comfortably as suspenders hold up pants. No pulling off in marsh mud when duck hunting.

Made of webbing with brass rings. The connecting strap is made of heavy elastic rubber.

Price, \$2.35 postpaid.

Bean's Rubber Shoes

For those needing waterproof footwear we recommend this shoe. Rubber is the only material that is 100% waterproof under all conditions. Chain tread sole same as used on our Maine Hunting Shoe.

This is a very lightweight shoe especially suitable for hunters and fishermen. Color, Olive Drab.

Youth's sizes 11 to 2. Boys' sizes 3 to 6.

Bean's Rubber Moccasin

A shoe of our own manufacture that we originated 30 years ago which resembles the popular Indian Moccasin. The dark reddish brown rubber is lighter than our Hunting Shoe bottom. The top is tan elk tanned leather sewed over top of rubber making a smooth edge that will not chafe.

A lightweight, waterproof shoe for fishing, boating or golfing.

Men's whole sizes only, 3 to 13. D width.

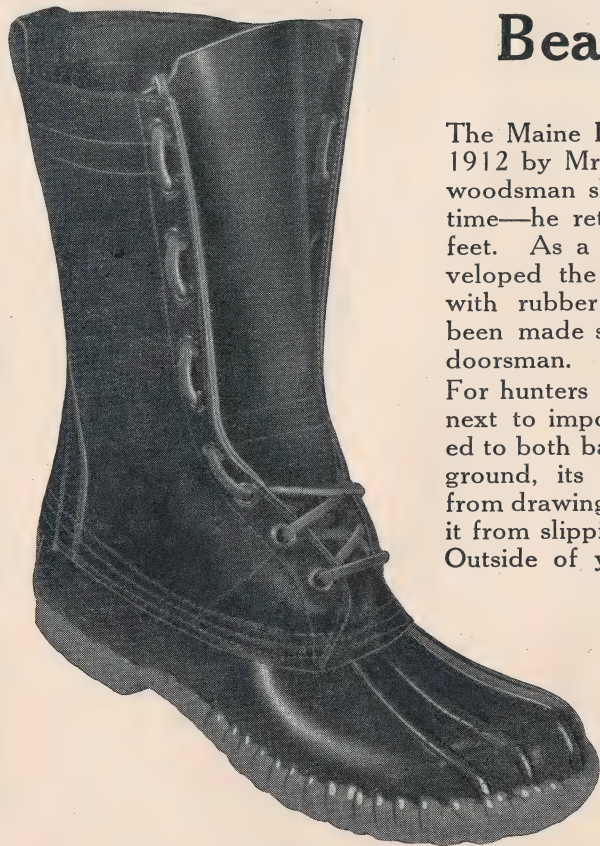

Price, \$9.50 postpaid.

(Fall 1964)

L. L. Bean, Inc. Freeport, Me.

Bean's 1964 Maine Hunting Shoe

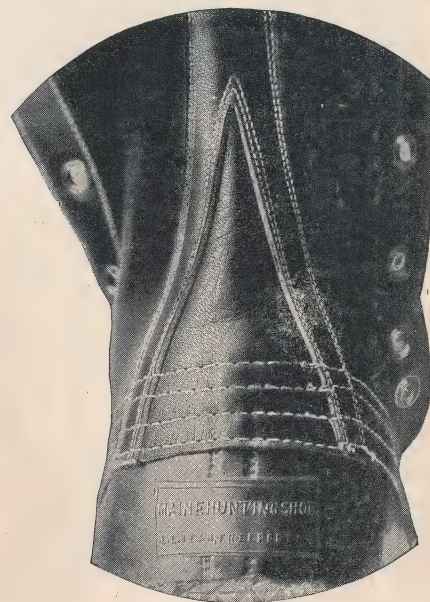

Our new shoe with non-slip sole and heel.

The Maine Hunting Shoe was first developed in 1912 by Mr. Bean. Wearing a pair of all leather woodsman shoes—the type in common use at that time—he returned from a day's hunting with sore feet. As a result of this experience Mr. Bean developed the Maine Hunting Shoe—a leather top with rubber bottom. Many improvements have been made since then for the comfort of the outdoorsman.

For hunters who go just before the first snow, it is next to impossible to find footwear that is adapted to both bare ground and snow hunting. For bare ground, its lightweight cushion innersole keeps it from drawing feet, while the crepe rubber sole keeps it from slipping.

Outside of your gun, nothing is so important to your outfit as your footwear. You cannot expect success hunting big game if your feet are not properly dressed. The average hunting shoe weighs about 4 ounces more than ours. As big game hunters walk about seven miles (or 18,480 steps) a day they lift 2310 pounds more than necessary.

Our Maine Hunting Shoe is made on a swing last that fits the foot like a dress shoe fits over a silk stocking.

PAT'D JAN. 11, 1921

The tops are made from full grain cowhide in tan elk tanned or brown oil tanned leather. The elk tanned leather is lighter and softer but not as waterproof or as durable as the oil tanned leather. Both leathers will not grow hard by wetting and drying if treated with Waterproof Dressing shown below.

The picture at upper right shows our patent backstay used on all our 1964 Hunting Shoes. This split backstay is a positive protection against heel cord chafing.

The bottom is made on swing last of extra high grade dark reddish brown rubber with cream color non-slip vulcanized sole, the only material made that will not wet through while tramping in melting snow or freeze stiff in cold weather.

Showing chain design non-slip sole.

Oil tan tops:	\$13.35	\$14.35	\$15.35	\$17.85	\$20.35	\$24.35

* 14 in. and 16 in. heights come with brown oil tan tops only. For lacing hooks add 50c.

Sizes 3 to 5. D and EE widths.

Sizes 6 to 12. D, EE and FF widths.

Sizes 13 and 14. D and EE widths.

Tops come in three leg sizes, **Slim** or **Medium** or **Full**.

State circumference of bare leg at height of shoe ordered.

In ordering, if you do not know your size, state size and width of dress shoe and/or enclose outline of bare foot.

Waterproof Dressing

This dressing is made especially for leather top rubbers, but there is no better dressing for moccasins, heavy work shoes, leather gloves and mittens. Most waterproof dressing contains grease that will ruin rubbers. This waterproof dressing will not injure rubber. We recommend applying this dressing on shoes whenever they are used for wet traveling. Put up in $\frac{1}{4}$ pint can. Price, 50c postpaid when shipped with other goods.

Bean's Leather Laces

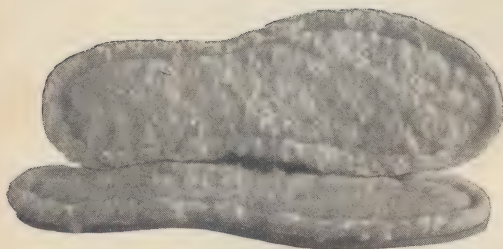

Are hand cut from selected leather that makes them just as strong in one place as another. Hand tested and guaranteed perfect. Put up in glassine envelope.

Price: For 8", 10", 12" shoes 2 pr. 70c.

For 14" and 16" shoes 2 pr. \$1.00 postpaid when shipped with other goods.

The height of our boots is measured from the floor to the highest part of the top. Please specify if size and width ordered is dress shoe size—or size and width desired.

Cold Proof Arched Innersole

A stiffening in the shank of a rubber or moccasin is just as necessary as in a leather shoe. It takes away that flat-footed feeling, making your rubbers feel the same as your everyday shoes.

Made of high grade sheepskin with sole leather shank as shown. The sheepskin is clipped to a uniform length so that it looks and feels like fur. The sheepskin takes up the moisture, while the leather keeps the feet off the rubber and prevents "drawing". If taken out at night and dried they will keep your Hunting Shoes clean, warm and dry.

One width only. Whole sizes 3 to 14.

Price, with sole leather shank, \$1.25 postpaid. Price, with steel shank, \$1.50 postpaid.

Bean's Arched Innersole

This is the same as our Cold Proof Arched Innersole shown above except that it has sole leather next to the foot with paper mill felt back. This innersole has all the advantages of our Cold Proof Innersole, but it is not quite so warm. It is very practical for all seasons of the year.

By removing at night, both shoes and innersoles are easily dried out.

One width only. Whole sizes 3 to 14.

Price, with sole leather shank, 95c postpaid. Price, with steel shank, \$1.15 postpaid.

Children's Cold Proof Innersole

This is the same as our men's Cold Proof Innersole except it does not have the arch support.

One width only, whole sizes 11, 12, 13, 1 and 2.

Price 75c postpaid.

Bean's Winter Play Shoes For Children

The lower part is a dark reddish brown rubber. The uppers are made from pieces of leather too small for our Maine Hunting Shoe. Guaranteed not to harden by wetting and drying.

Sizes 11, 12, 13, 1 and 2. Medium width only. Height 8".

For children wearing larger than size 2 we recommend our Maine Hunting Shoe shown on pages 50 and 51.

Price \$7.85 postpaid.

Ladies' 9 Inch Hunting Shoe

Ladies are buying more of our Hunting Shoes than ever before. For this reason we have added this 9" shoe. It is the same as our Maine Hunting Shoe. Since the 10" height is most popular for men we feel that the 9" height should be best for women.

Elk tanned full grain leather, color tan.

Whole sizes only, 3 to 8, D width, medium top.

Please state size and width of dress shoe when ordering.

Price, \$13.30 postpaid.

Old Maine Hunting Shoes Rebuilt

We wish to call your attention to the fact that throwing away a pair of used Maine Hunting Shoes is about the same as throwing away a five dollar bill.

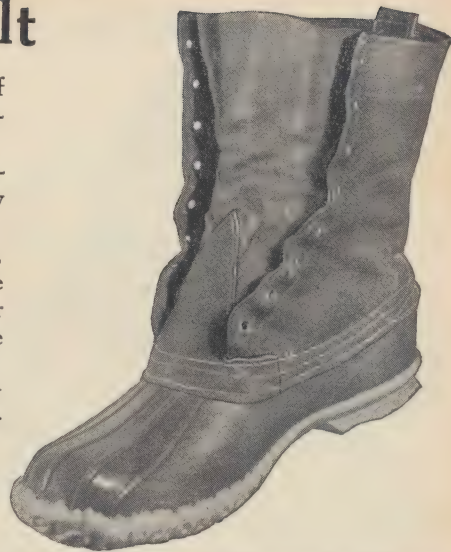

Send them to us and we will attach our 1964 hunting rubbers, waterproof tops, replace missing eyelets, make small repairs and supply new laces.

If tongues are poor or thin we reinforce them by our patent method, as shown at right. Shoes not suitable to be rebuilt will be returned. We rebuild Maine Hunting Shoes but we do not rebuild old leather shoes or moccasins. Please clean shoes and remove laces and innersoles before mailing.

Old rubbers may be removed from tops to save postage if you know your size. We can attach new rubbers one size larger or one size smaller than old rubbers if required. Time required for work about five days.

Whole sizes only, 3 to 14 D and EE widths. Sizes 6 to 12 FF width.

Price \$7.75 postpaid. West of Mississippi add 35c.

Featherweight Shoe

Has a lightweight elk tanned leather top with high grade dark reddish brown rubber bottom, same quality as used in our Maine Hunting Shoe but 8 ozs. lighter throughout. Sole is heavy enough to protect feet from rough traveling. Whole sizes only 3 to 13. D width only.

Price: 6" \$11.00. 10" \$13.00 postpaid.

Directions For Mailing Packages

When returning goods to us place letter of instructions inside, on top of items in parcel. Postage at first class rate must be paid for each letter.

Place endorsement "First Class Mail Enclosed" on parcel below postage and above address.

Bean's Loose Tongue Protector

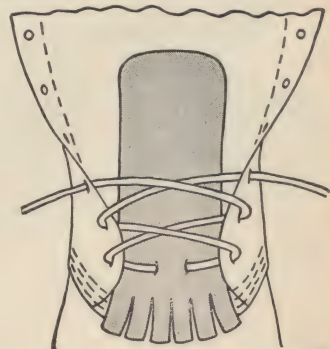

Protects the tongue from lace chafing, also protects the lace from cutting wearer's instep and allows a closer fit at ankle and instep.

Comes in tan or brown. Especially designed for Maine Hunting Shoes but will fit blucher type shoes from 6" high up.

Price, 50c per pair postpaid when shipped with other goods.

The Pickerel Snowshoe

This narrow shoe is made of the same high grade material used in our Maine Snowshoe. (See page 99.)

This type of shoe had its origin in the far North where the Indians needed a light, easy running shoe to track down their game on light drifting snow. Beginners can start right off in confidence for the narrow tread and high upturn eliminates interference and tripping. It does not load and its bearing value is equal to other types of shoes 50% wider. Filled with fine mesh in toe and heel and heavy coarse mesh in body. Note the special rawhide reinforcements at toe.

Size 10" x 56". Price, without rigging, \$25.85 postpaid.

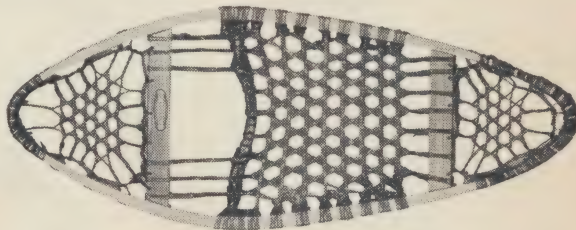

Bear Paw Snowshoe

Made from the same fine grain ash that we use in our Maine Snowshoes. (See page 99.)

Slightly turned up toe. Filling will not sag.

This type shoe is very popular with guides, lumber cruisers and trappers who are obliged to travel in thick growth.

Size 13" x 33". Price, without rigging, \$25.80 postpaid.

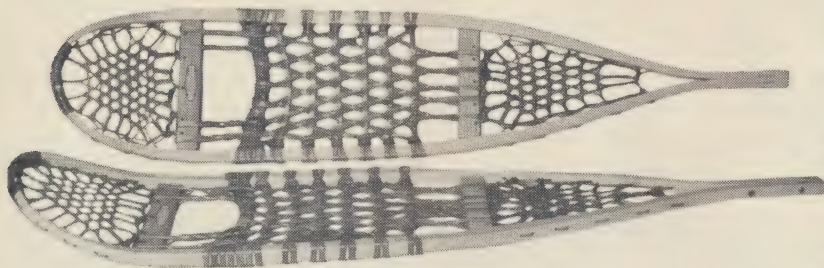

Cross Country Model

Made of the same fine materials as our other models.

We are offering this new Cross Country Model because it has proven so satisfactory for use by groups of bobcat and rabbit hunters in New England.

The 10" x 46" size is the universal men's size as are our Pickerel and Bear Paw Models.

Size 10" x 46". Price, without rigging, \$25.90 postpaid.

Bean's Snowshoe Rigging

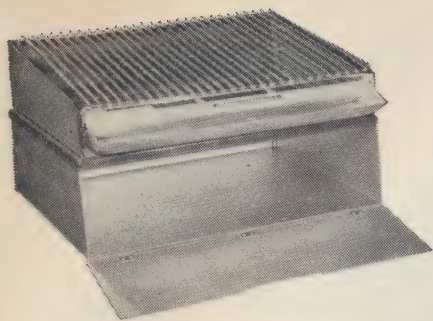

Is the result of a great deal of experimenting. The construction is simple.

The leather used is high grade oil tanned and very pliable. Price, \$2.95 per pair postpaid.

Summer Care Of Snowshoes

Wipe clean and varnish both the wood and webbing. Any high grade Spar Varnish will do. Two coats are better than one, but in any case they should be thin coats. Tie the shoes securely together, back to back, and force a block of wood into the space between the toes. Suspend by wire so that mice or squirrels cannot get at them.

Charcoal Broiler and Baker

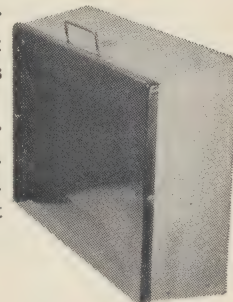

A sturdy compact broiler with built-in reflector oven. Can be set up on wood table and is excellent for use in home fireplace. Detachable drip pan catches grease, reducing flare-up and excessive smoke.

Made of steel with porcelain enamel firebox. Reversing position of grill levels surface for use as a camp stove. Made from steel with aluminum bonded to oven for highest heat reflection and to prevent rust.

Bean's Chamois Cloth Shirt

Made on regular shirt pattern, with two large breast pockets with button flaps, and one-button cuffs. All cotton.

Machine washable and is more durable than wool, yet is warm and very soft. The longer it is worn the more it feels and looks like high grade chamois leather.

This is the shirt Mr. Bean uses on his fishing and hunting trips. The scarlet is a good fishing shirt as red repels black flies. Also safe for dragging in deer without coat.

Two colors: Tan. Bright Red.

Sizes 14½ to 19. Weighs 13½ oz.

Price, \$5.85 postpaid. Send for free samples of materials.

See page 15 for our Ladies' Chamois Cloth Shirt.
